## Labelling Solutions

### Cableflag Tag PRO Cable Label System

TagPro is a fast & easy labelling system that can easily be removed and reused.

The free online printing app is so simple and fast. It runs on any browser or OS.

Available in:

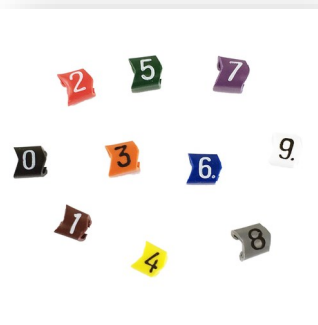

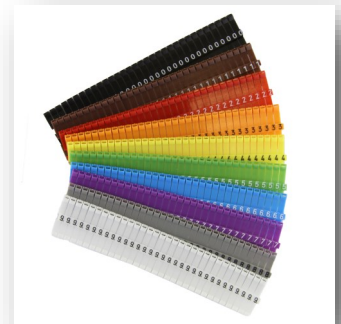

- [Box of 200x Clip on Tags with 3x A4 Label Sheets](#)
- [Box of 1000x Clip on Tags with 10x A4 Label Sheets](#)

### Clip-Around Cable Markers

Suitable for 3.6mm - 6.0mm diameter Copper & Fibre patch cables.

Each number comes on a strip of 32 clips, designed to interlock when fitted enabling easy alignment of multiple character markings.

Clips are easy to install on existing networks without the need of tools.

### Clip-On 'Chevron Cut' Cable Markers

Fast, Snap-On installation make these sleeves ideal for post-termination marking.

Designed to interlock when fitted enabling easy alignment of multiple character markings, each number comes in a bag of 200.

Available in 3 sizes:

- [2.4mm-3.0mm](#) for Fibre
- [3.0mm-4.0mm](#) for Slim fit Copper
- [5.0mm-6.2mm](#) for standard Cat5e, Cat6 & Cat6a

### Panduit Fibre Cables Identification Sleeves

Panduit identification sleeves are the easy to use solution to help identify Fibre Cables.

The Fibre Cable is simply inserted in to the flexible PVC sleeve which provides a large labelling surface on which a sticky label can be fixed allowing small cables legends to be clearly seen.

Available in [White](#) for 3mm Duplex cables and [Yellow](#), [Aqua](#), & [Orange](#) for 2mm Simplex cables.
