

PATCHSAVE SOLUTIONS

THE DATA CENTRE DIFFERENCE

Below are some of our Latest Products.
All Available for Next Day [Delivery](#) via our [Website](#)

OS2 LC to SC/APC Fibre Patch Cables

Singlemode [OS2](#) APC Fibre is becoming increasingly more popular in the modern Data Centre.

The Angled Polished Connector (APC) prevents back reflections which can seriously degrade data transmitting performance.

UK Plug (3Amp) to Angled C7 Power Cable

The angled head on this [C7](#) power cable makes it easier to use when cabinet or wall box space is tight.

The C7 fitting (also known as a Figure of 8), is most commonly used on Audio Visual, Laptop chargers and external networking power supplies.

Colour Coded Velcro Reels

These enhance and add a further professional touch to your installation, by offering superb strength and they can be cycled hundreds of times.

Available in [Aqua](#), [Orange](#) & [Purple](#) to match industry standards of data & fibre installations.

Excel Grey Office Faceplate & Modules

Available as [Cat5e](#) & [Cat6](#) options, these fully furnished faceplates will bring style to any office space.

Single (1 Gang) Faceplates are offered with [1](#) or [2](#) installed modules. While the Double (2 Gang) Faceplates have [4](#) modules installed.
