Patchsee ThinPATCH
Cat6A UTP Patch Cables Data Sheet
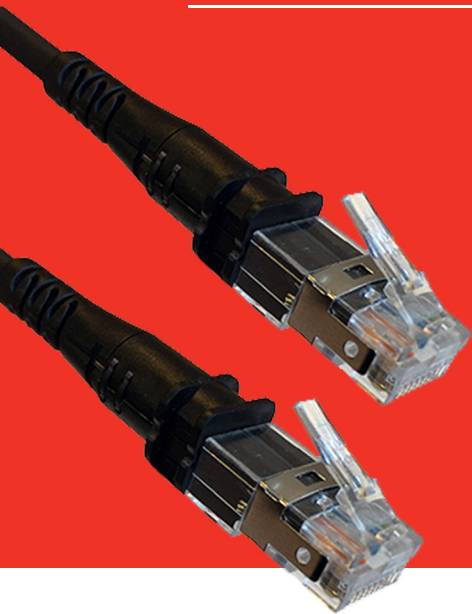

☑ Patchsee Cat6A UTP and FTP RJ45 ultra slim patch cables are up to 2x thinner than standard Patchsee cables.

☑ With a slim line boot aligned with the RJ45 connector, ThinPATCH cables are adapted for high-density IT patching environments

☑ Available as unshielded (UTP) PVC and foil shielded (FTP) Low Smoke Zero Halogen (LSZH) sheath cables with up to 10 Gb/s and PoE+ compatibility.

☑ Compatible with the ECO-PATCHLIGHT & PRO-PATCHLIGHT and 16 colour coded PatchClips for first level identification.

☑ 100% test of each patch cable on both its electrical and optical properties, then identified by a unique serial number.

☑ ThinPATCH cables drastically improve air-flow within your racks and cabinets, reducing the risk of network downtime.

☑ Gain better accessibility and quick and easy switching with 2x the flexibility than standard Patchsee cables.

☑ Both UTP and FTP cables are available in 11 lengths from 0.6m to 4.9m and are available with a choice of coloured clips to fit securely on to the ThinPATCH slim line boot.
