

Zettonics TEN21 LC MTP/MPO Fibre Cassettes Data Sheet

- Zettonics TEN21 LC singlemode and multimode MTP/MPO cassettes are designed for all data centre and enterprise network applications.
- Applications in central office, LAN and campus environments also approved.
- Both singlemode and multimode options are available with either 12 or 24 fibres.

- With tool-less installation and one click latching technology, these cassettes can be inserted and removed from both the front and the rear.
- Designed for quick and efficient network installation using Zettonics TEN21 MTP/MPO trunk cables and patch cords.
- These ultra-high-density cassettes are compatible with the Zettonics TEN21 1U, 2U chassis or 0U housing.
