

C13 PDU Outlet Lock (Yellow) Data Sheet

- ✓ These clever C13 PDU outlet locks convert standard C13 IEC320 power outlets into lockable outlets securing C14 power cables.
- ✓ Quick and easy to install and use and prevents accidental disconnection of power cables.
- ✓ Available in yellow in a pack of 10.

- ✓ To properly install the C13 outlet locks, press lock firmly into the outlet until it had clicked into place.
- ✓ The C14 cable can then be inserted into the new lockable outlet and the 2 wings can then be clicked to fully lock the cable in place.
- ✓ The outlet lock can be easily removed from the PDU outlet by squeezing in the sides of the lock and pulling out gently.
